

DIDSBURY PIONEER

Vol. XXII

THURSDAY, SEPTEMBER 17th

No. 87

Cutting and Threshing one Operation.

E. G. Cook, M.L.A., Pineher Creek, is cutting and threshing his wheat crop with one operation. He uses a machine drawn by eight horses, cuts a swath fifteen feet wide, and covers 35 to 40 acres daily, employing two men, one to drive horses and the other to look after the threshing machine which is operated by a 25 h.p. motor. Only enough straw is cut to get all the heads. This is elevated as in any binder or header and dropped into the thresher. Tank wagons follow the machine to take the wheat stream. Only fields of uniformly ripe grain can be successfully handled. Saving of twine, stooking, shattering of grain from the usual many handlings and of labor are effected, amounting in all to about 15c per bushel, according to Mr. Cook.

Should Save Seed Corn

Farmers who are growing Howes Alberta Flint Corn in quantity will, as a matter of course, save seed for their own use, or to sell. Those who are growing it in gardens, however, should see to it that they save a small quantity of seed for their own use. The College of Agriculture cannot undertake to furnish the seed for everyone.

Additions to Wheat Pool

The Alberta wheat pool is adding an average of 4000 acres each day to the total acreage involved in the pool for the 1926 crop according to announcement from pool headquarters. In one day in the past week 8000 acres were added.

Alberta's first sugar beet crop on irrigated land is expected to average 15 or 16 tons to the acre.

Freight Rates Reduction Causes Dissatisfaction.

Keen disappointment, coupled with the belief that some mistake has been made or that a "rider" was included in the order of the railway board issued on Sept. 2, which was not made public, is evident among farmers and grain men throughout the province on receipt of the freight rates scale, effective Tuesday evening on grain and flour for export moving westward to the Pacific coast.

The reduction is so slight that it is almost negligible, and if the new tariff as at present constituted stands, it is certain that the benefits accruing to the farmers of Alberta as a result of their favorable position with regard to Vancouver, will be a great deal smaller than anticipated.

The expectation was that the advantage to farmers in Alberta would be in the neighborhood of from three to four cents per bushel; on the contrary, under the new

schedule in effect Tuesday, the advantage will only amount to a fraction of a cent per bushel.

Grain moving to Vancouver Tuesday will receive the benefit of the new tariff, charges being collected at the point of destination.

The following is a comparison of the rates prevailing from points in Alberta and Saskatchewan to the port of Vancouver on grain for export before the new schedule went into effect Tuesday, with the rates under Canadian Pacific tariff W. 5469, the new schedule now prevailing:

	Old Rate	New Rate
Medicine Hat....	24 1-2	23
Calgary	22 1-2	21
Edmonton	22 1-2	21
Lethbridge	23 1-2	23
Red Deer	24 1-2	24
Regina	28 1-2	26
Moose Jaw	28	25
Swift Current....	26	24
Saskatoon	28 1-2	27

Bergen Notes

Miss Sexsmith has returned to our midst and the song of the School bell is heard in the land.

Andy Dolan had the misfortune to lose his house last week, but managed to keep the fire from spreading to the other buildings. A batch of bread which was in the oven at the time, he was unable to save.

Miss Bessie Dougan is the latest addition to the Bergen contingent at the Didsbury High School.

Miss Alma Haug is home again after her extended sojourn in the metropolis.

Rev. Shantz is leaving us temporarily for a new charge. He is going over the top to bring in the sheaves. More power to his arm.

The bridge at Dougan's ford has been completed by the bridge gang and is now awaiting the ministrations of the road boss and his grading crew before being officially opened for traffic.

He gambolled in a valley dark and stubbed his toe and fell into a hole both soft and deep, all he could do was yell:

He didn't struggle to get out so sank up to his eyes.

Where ignorance is bliss tis folly to be wise.

The above news from Bergen was unavoidably held over from our last issue.—Editor.

Quality Program at Didsbury Opera House.

On Saturday, September 18th, Mr. Sharp will show at the Didsbury Opera House, "Not so long ago," with the comedy, "Why hurry?"

On Wednesday, September 28th, will be presented "The man who found himself," from one of Booth Tarkington's works. With this an excellent comedy will be given entitled "Wedding showers."

A dance will be given in the Opera House on Friday, September 25th. Music furnished by the Carstairs orchestra.

1925 Hail Rate

Official estimates of the rate to be charged members of the Alberta Hail Insurance board for 1925, place the amount in the neighborhood of 7 per cent, although the definite figure will not be struck until the regular meeting of the board of directors, held in Calgary on Tuesday.

Twenty-five per cent. more business was written by the Alberta Hail Insurance board in 1925, than during the previous year.

A total risk of nearly \$11,000,000 was made up as follows: 105,888 acres insured at \$6.00 per acre; 69,297 acres insured at \$8.00 per acre, and 969,984 acres at \$10 per acre.

Officers of the hail board stated that the year just passed had been an average season, the loss being slightly greater than last year, but considerably less than in 1923.

It is estimated that the total awards will be about \$680,000.

Most disastrous hail storms took place on July 1, 4 and 6, and August 3. On July 1, 13 municipal districts were struck by hail; on July 4, three districts were affected seven districts were hailed on July 6, and 25 districts were affected on August 3.

Stated to be the oldest Freemason in the United States, and possibly in the world, Dr. J. S. Halstead, of St. Joseph, Mo., died on Sunday at the age of 107.

The finishing touches to W. G. Liesemer's new store are being added this week, and the stock it is expected will be moved in during the next few days.

Ladies! Attention! N. Nowak, shoe repairer, Didsbury, handles an article for removing grease and oil stains from clothing. Call in and investigate.

With the announcement of the dates of two more nominating conventions for the appointment of U.F.A. candidates to run in the federal elections in October, the number of such meetings now reaches nine in Alberta.

TOWN OF DIDSBURY. NOTICE.

The Local Board of Health desires to draw attention to the provisions of the Public Health Act, whereby it is necessary for any person who intends to keep pigs within the limits of the Town of Didsbury to apply to the Board for a permit.

W. A. AUSTIN,
Secretary.

In the coming election, in East Calgary the Liberal nominee will be W. M. Davidson. In West Calgary, R. B. Bennett, K.C., has accepted the Conservative nomination. As yet, he has no opposition both Mayor Webster and Mrs. Nellie McClung refusing the nomination of the Liberal party.

TOWN OF DIDSBURY NOTICE

Notice is hereby given that under Section 48, of the Domestic Animals Act (Municipalities) that one bay gelding branded PF on left shoulder was impounded in the pound kept by the undersigned, located on lots 27 and 28, Block 18 Plan "Didsbury 110-0" on the 29th day of August, 1925, and that the said animal was sold on the 11th day of Sept., 1925, to James Ruby of Didsbury, Alberta and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.

W. A. AUSTIN,
Secretary-Treasurer of the Town of Didsbury, Didsbury, Alberta.

Photography

The undersigned desires to notify his patrons that his new Studio is now completed and that he is now in a position to give more efficient service and greater satisfaction than ever.

Paper From Flax Straw

It is understood that paper from flax straw as a new Alberta industry is making some progress towards realization and the Provincial Government is continuing its investigation into the business possibilities of such an enterprise. Sufficient experimentation has already been done for the present, but further details in connection with getting a possible industry under way will be gathered from the government by the trade commissioner.

BAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BAREE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog. Is an Adaptation of This Story

SYNOPSIS

Baree, wandering in the woods, came upon Wakayoo, the black bear, and, fascinated, watched him knock fish out of the pool. He learned where Wakayoo cached his provisions, a discovery that solved the food problem for the young wolf-dog. One day he suddenly found himself face to face with Pierrot, the trapper, and his daughter, Nepeese, the Willow, who a few days before had shot and slightly wounded Baree, thinking him a wolf. Nepeese now pursued Baree, who concealed himself beneath a great boulder.

CHAPTER VII.—Continued.

From where he lay Baree could see what happened. Scarcely had he crawled under the rock when Nepeese and Pierrot appeared through the break in the dip, and stopped. The fact that they stopped thrilled Baree. They were afraid of Wakayoo! The big bear was two-thirds of the way across the meadow. The sun fell on him, so that his coat shone like black satin. Pierrot stared at him for a moment. Pierrot did not kill for the love of killing. Necessity made him a conservationist. But he saw that in spite of the lateness of the season, Wakayoo's coat was splendid—and he loved his life.

He saw the end of the gun, and then he heard that deafening crash that had come with his own hurt, when the Willow's bullet had burned through his flesh. He turned his eyes swiftly to Wakayoo. The big bear had stumbled; he was on his knees; and then he struggled up and lumbered on.

The roar of the rifle came again, and a second time Wakayoo went down. Pierrot could not miss at that distance. Wakayoo made a splendid mark. It was slaughter; yet for Pierrot and Nepeese it was business—the business of life.

Baree was shivering. It was more from excitement than fear, for he had lost his own fear in the tragedy of these moments. A low whine rose in his throat as he looked at Wakayoo, who had risen again and faced his enemy.

DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience with Lydia E. Pinkham's Vegetable Compound

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. ADAMS, Box 54, Provost, Alberta.

Pains in Left Side

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard,' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. ROSE, 580 Notre Dame St., Lachine, Quebec.

W. N. U. 1594

emies—his jaws gaping, his head swinging slowly, his legs weakening under him as the blood poured through his torn lungs. Baree whined—because Wakayoo had fished for him, because he had come to look on him as a friend, and because he knew it was death that Wakayoo was facing now. There was a third shot—the last. Wakayoo sank down in his tracks. His big head dropped between his forepaws. A racking cough or two came to Baree. And then there was silence.

CHAPTER VIII.

As Nepeese gazed about the rock-walled end of the canyon, the prison into which they had driven Wakayoo and Baree, Pierrot looked up again from his skinning of the big black bear, and he muttered something that no one but himself could have heard. "Non, it is not possible," he had said a moment before; but to Nepeese it was possible—the thought that was in her mind. It was a wonderful

"She drew herself out and stood once more in the sunshine."

thought. It thrilled her to the depth of her wild, beautiful soul. It sent a glow into her eyes and a deeper flush of excitement into her cheeks and lips.

As she gazed the ragged edges of the little meadow for signs of the dog-pup, her thoughts flashed back swiftly. Two years ago they had buried her princess mother under the tall spruce near their cabin. That day Pierrot's sun had set for all time, and her own life was filled with a vast loneliness. There had been three at the graveside that afternoon as the sun went down—Pierrot, herself and a dog, a great, powerful husky with a white star on his breast and a white-tipped ear. He had been her dead mother's pet from puppyhood—her bodyguard, with her always, even with his head resting on the side of her bed as she died. And that night, the night of the day they buried her, the dog had disappeared. He had gone as quietly and as completely as her spirit. No one ever saw him after that. It was strange, and to Pierrot it was a miracle. Deep in his heart he was filled with the wonderful conviction that the dog had gone with his beloved Wyola into heaven.

But Nepeese had spent three winters at the Missioner's school at Nelson House. She had learned a great deal about white people and the real God, and she knew that Pierrot's thought was impossible. She believed that her mother's husky was either dead or had joined the wolves. Probably he had gone to the wolves. So was it not possible that this youngster she and her father had pursued was of the flesh and blood of her

HARD PIMPLES ALL OVER FACE

For About Three Years. Healed by Cuticura.

"I had trouble with pimples and blackheads for about three years. The pimples were scattered all over my face and were hard and red. They itched and burned a lot causing me to scratch and the scratching caused eruptions. My face looked so badly that I was ashamed to go out."

"I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in two months I was completely healed." (Signed) Miss Helen Budnik, R. 1, Box 11, Necedah, Wis., Sept. 27, 1924.

Rely on Cuticura Soap, Ointment and Talcum to keep your skin clear.

mother's pet? It was more than possible.

Baree had not moved an inch from under his rock. He lay like a thing stunned, his eyes fixed steadily on the scene of the tragedy out in the meadow.

Baree wanted to approach. It was like an invisible string tugging at his very heart. It was Kazan, and not Gray Wolf, calling to him back through the centuries, a "call" that was as old as the Egyptian pyramids and perhaps ten thousand years older. But against that desire Gray Wolf was pulling from out the black ages of the forests. The wolf held him quiet and motionless. Nepeese was looking about her. She was smiling. For a moment her face was turned toward him, and he saw the white shine of her teeth, and her beautiful eyes seemed glowing straight at him.

And then, suddenly, she dropped on her knees and peered under the rock. Their eyes met. For at least half a minute there was not a sound. Nepeese did not move, and her breath came so softly that Baree could not hear it.

"Baree! Baree! Upi Baree!"

It was the first time Baree had heard his name, and there was something so soft and assuring in the sound of it that in spite of himself the dog in him responded to it in a whimper that just reached the Willow's ears. Slowly she stretched in an arm. It was bare and round and soft. He might have darted forward the length of his body and buried his fangs in it easily. But something held him back. He knew that it was not an enemy; he knew that the dark eyes shining at him so wonderfully were not filled with the desire to harm—and the voice that came to him softly was like a strange and thrilling music.

"Baree! Baree! Upi Baree!"

Over and over again the Willow called to him like that, while on her face she tried to draw herself a few inches farther under the rock. She could not reach him. There was still a foot between her hand and Baree, and she could not wedge herself in an inch more. And then she saw where on the other side of the rock there was a hollow, shut in by a stone. If she had removed the stone, and come in that way—

She drew herself out and stood once more in the sunshine. Her heart thrilled. Pierrot was busy over his bear—and she would not call him. She

TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps, save the baby's life. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

made an effort to move the stone which closed in the hollow under the big boulder, but it was wedged in tightly. Then she began digging with a stick.

Five minutes—and Nepeese could move the stone. She tugged at it, inch by inch she dragged it out until at last it lay at her feet and the opening was ready for her body. She looked again toward Pierrot. He was still busy, and she laughed softly as she untied a big red-and-white Bay handkerchief from about her shoulders. With this she would secure Baree. She dropped on her hands and knees and then lowered herself flat on the ground and began crawling into the hollow under the boulder.

Baree had moved. With the back of his head flattened against the rock he heard something which Nepeese had not heard; he had felt a slow and growing pressure, and from this pressure he had dragged himself slowly—and the pressure still followed. The mass of rock was settling! Nepeese did not see or hear or understand. She was calling to him more and more pleadingly:

"Baree—Baree—Baree—"

Her head and shoulders and both arms were under the rock now. The glow of her eyes was very close to Baree. He whined. The thrill of a great and impending danger stirred in his blood. And then—

(To be continued)

COLOR IT NEW WITH

"DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, hats, gloves, hangings, everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Woman's Profile On Cliffs Of Dover

Heavy Fall of Chalk Leaves Complete Clear Outline

The outlined profile of a woman's head has appeared on the face of a great white cliff between Dover and St. Margaret's Bay, near the sacred memorial to the Dover Patrol. It suddenly came into view after a heavy fall of chalk from the top of the cliff.

Boatmen who passed the cliff in their boats—the beach below cannot be reached on foot—saw one day that the chalk had fallen in such a way as to produce on the cliff the complete clear outline of a woman's face. The eye in profile is closed, the nose is straight and long, the lips are parted and the head is bowed as if in prayer or meditation. The face is turned towards Dover. It is easy to discern the shape of the skull and a sweep of hair over the forehead.

The face has caused no little comment among Dover boatmen. Some have christened it "The Lady." It is not considered a subject for jests or laughter. The profile is pointed out to one by the boatmen in tones closely resembling awe.

Scared the Passengers

A Hampstead tube train was leaving Helsize Park Station, London, when there was a loud bang. Several women screamed, the conductor looked uneasy, one housewife with a handful of parcels jumped up and made for the door.

A child sobbed—and looked reproachfully at her right hand, which held a piece of string and the fragments of a toy balloon.

Doc.—"Well, what's troubling you?" Patient.—"Frequent pains in the back."

Doc.—"Here are some pills; take one fifteen minutes before pains start."

Old-fashioned ideas may be the best at times, but you can't run an auto by feeding it oats.

Make your own Mustard Pickles

Home-made mustard pickles. How delicious—and how easy to put up. Here's the recipe:—

MUSTARD PICKLES

1 qt. small onions 1 large cauliflower
1 qt. cucumbers 2 heads celery
2 red peppers

Peel onions, cut vegetables in small pieces, cover with weak brine and let stand overnight. In the morning bring to a boil and drain off.

Take 2 cups brown sugar, 1 cup flour, 6 tablespoonsful Keen's D.S.P. Mustard, 1 tablespoonful turmeric and 2 quarts vinegar. Boil this mixture for twenty minutes, stirring continually. Pour over vegetables hot. Let stand ten days, stirring every day, then bottle.

Keen's Mustard

Aids digestion

May Queen Opens Bridge

May Queen Kathleen cut the silken ribbon at the recent official opening of the new bridge over the South Thompson River at Kamloops, B.C., which cost \$238,000. A bevy of pretty girls representing Canada and her provinces took a prominent part in the ceremony.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Seek Grain Survey Board

With the certainty of increased grain trade for the port of Vancouver, following the equalization of freight rates, business interests will make a renewed effort to have a grain survey board established at Vancouver. Alberta interests are expected to cooperate.

A WONDER.

FUL, natural water softener—leaves the hands soft and white. Refuses to scratch.

EVANGELICAL NOTES.

Church Services
Sunday
10.30 a.m.—Morning worship.
11.30 a.m.—Bible School.
7.30 p.m.—Evening Worship.
8.30 p.m.—Senior League of Christian Endeavour
Thursday
7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
8.00 p.m.—Praise and Prayer Service.
H. E. Roppel, pastor

On account of the holidaying absentees, marriages and removals from the evangelical church choir, it has therefore been off duty during July and August, and was missed very much, but the recent return with vacancies filled in with new recruits, is not only much appreciated by both pastor and people but promises also to be continuing and valuable asset to the activity of the church. Much praise is due to the leader, Mr. G. Liesemer and co-workers for their deep interest and faithfulness in their ministry of music and gospel song.

Sunday, October 4th is the official Rally Day. The League has already planned for a suitable service and program for the occasion. But should we not all rally and help to make this Rally Day a rally which will really rally all forces? Remember the date.

Miss Olive Chamberlin who recently underwent an operation for appendicitis in the Didsbury hospital, has returned home again and is able to be out and around, almost fully recovered.

Mr. and Mrs. Joseph Thed, of Port Elgin, Ontario, in company with Mrs. Israel, of Kitchener, Ontario, were visitors here in town and vicinity over the week end. Their visits were at the homes of Mr. H. Reiber, E. Kercher, Rev. Roppel, E. Thede, H. Gable and others.

The funeral service of David Luft, who died on Tuesday afternoon, September 15th, in his twentieth year, will be held on Friday at 2.30 p.m. in the Evangelical church, Didsbury. The deceased is a son of Mr. and Mrs. Peter Luft living about 7 miles west of Didsbury. Their pastor in charge of the German Moravian church in Calgary will be present to take part with the Evangelical pastor in the church funeral service here.

LARGE RANGE IN SUITS & OVERCOATS, UNDERWEAR, MITTS, GLOVES, HATS & CAPS, BOOTS & SHOES, etc.

J. V. BERSCHT, Leuszler Block, Didsb'y

The Tourist's Eternal Triangle

Someone has just published a book about Canada. It is only a little book—about eighty pages—but it contains an astonishing amount of information. It will tell you how many cities there are in Canada; how many people there are in these cities; how many bushels of wheat were grown in 1924 and how much money the government makes out of the business of governing. It will also tell you, incidentally, that Victoria, B.C. is one of the most beautiful cities of the world and that Vancouver has the second finest harbor there is anywhere.

That is the right sort of book to publish. There is nothing vague, nor indefinite nor yet inaccurate about the information it gives. It errs, if at all, in being a trifle too modest. Victoria, is indeed one of the most beautiful cities in the world, but that is not all one can say about it. It is the capital of British

Columbia and as such is the centre of the province's recreational, industrial, and social activities and that's saying a whole lot. Then there's Vancouver. Look at its bathing beach. No wonder the citizens have built the second finest harbor in the world when they have a great and beautiful slab of the Pacific Ocean to fling themselves and each other into to revive their weary bodies and minds whenever the business of operating their famous harbor becomes burdensome.

These two cities are linked with each other and with Seattle, to the south, by what is known as the Triangle Route of steamships of which the Princess Kathleen, of the Canadian Pacific Coastal service is a member. The 'Kathleen' recently made her inaugural trip on this route and is now permanently in the service.

More Alberta provincial savings certificates were sold in the first six months of this year than in any full year previously, even including the big record year of 1920. Since the beginning of the current year up to the end of June, the total sales amounted to \$1,401,600. There is now close to \$7,000,000 outstanding in savings certificates.

Radio receiving licenses held in Canada at the end of last month numbered 56,063, according to a statement issued by the Federal Government. Ontario leads all provinces with a total of 28,507. Quebec occupied second place with 7,882 licenses, followed by Saskatchewan with 6,551; Manitoba, 4,443; British Columbia, 3,392; Alberta, 3,004; Nova Scotia, 1,435; New Brunswick, 735; Prince Edward Island, 87; Yukon, 22; and Northwest Territories, 5.

A consignment of 21 fox hounds from the famous Mendip Hunt Pack, in Somerset, England, was brought to Canada early in August by the Dominion Express Company for the Toronto Hunt Club. The English papers published photographs of these splendid animals and expressed gratification that good British hounds were being used on the hunting fields of Ontario. This is the third such consignment brought out by the Dominion Express within recent weeks.

Frank W. Ashby, secretary of the Manufacturers' Association of Australia, a recent visitor at Banff, said he found Canada to have a most delightful climate and "cities which are more modern than our own." Mr. Ashby said the impression in Australia had been that Herschell Island and Baffin's Bay were linked up municipally with Montreal and Winnipeg, and thought that the best way to correct these geographical misconceptions was to encourage more tourist travel from other parts of the Empire.

Here and There

Canadian bond sales during the week ending August 10th amounted to \$398,579, which brings the total for the year up to \$247,069,160. Of this sum \$103,335,827 represents the value of bonds sold in Canada; \$27,978,333 in the United Kingdom, and \$115,742,000 in the United States.

The port of Montreal is well on its way this season to beat all previous records for tonnage received as statistics, obtained from the Harbor Commissioners' office, show that there is a big increase in the number of ships berthed in the port to date, as compared with the number for the same date last year. Up to August 8, 608 boats had docked here and their total tonnage was 1,986,456, while up to August 13, 1924, only 537 vessels had tied up here since the opening of navigation of the 1924 season, and their tonnage was 1,891,367.

One notable feature of the tourist season in the Canadian Rockies this summer has been the demand for saddle horses, according to J. M. Gibbon, secretary of the Trail Riders, who recently returned to Montreal from the west. The practice is growing of sending the horses in advance to points where the trail crosses a motor road and thus one commences one's ride at a point thirty or forty miles from one's headquarters. Thus the great cavalcade of over one hundred riders who participated in the recent three-day cross country ride between Marble Canyon on the Banff-Windermere Highway, to Wapta Bungalow Camp on the Canadian Pacific Railway, was made possible and convenient as it took only two hours to convey the riders from Banff and Lake Louise by motor bus to the points of departure.

TEA "is good tea"

The ORANGE PEKOE is extra good. Try it!

The Coming General Election

The outstanding event of the week in which this article is written was the dissolution of Parliament and the calling of a general election to take place next month to choose a new House of Commons. This is a matter in which every citizen of Canada is vitally interested regardless of individual party views and affiliations or position occupied in the economic life of the Dominion.

The fortunes of political parties are not the concern of this particular column; what we are concerned about are the fortunes of the Dominion of Canada, and, in particular, of Western Canada because of a profound conviction that it will only be through the settlement, the development, the prosperity of this vast western land that permanent growth and prosperity will come to the Dominion as a whole. Support given, or opposition voiced, in this column to any given policy in the past, or that may be given or voiced in the future, is not because such policy may originate with any particular political party, but because of its bearing on Canada's progress and prosperity.

In the coming election, as in all elections, many conscientious voters will find themselves in somewhat of a quandary just how to mark their ballot paper. They not only will be called upon to choose from among the candidates offering for election the man or woman to be their representative at Ottawa, but, while making that choice, they must also render a verdict on the larger national issue of the policies and group of men they desire to rule at Ottawa.

Because of this double responsibility, many voters find themselves in difficulties. If it was merely a case of selecting their local representative, the task would be comparatively simple, namely, voting for the candidate who in their judgment was the most upright, the ablest, best informed and most intelligent, and therefore likely to prove the most capable representative. But it not infrequently happens that this particular candidate is standing in support of policies and leaders which the individual voter is not prepared to support, while a less capable man is the candidate supporting policies and leaders in which he has confidence. The problem is there, but in the final analysis it must be decided by the voter.

One thing the individual voter can do, and that is to use all his influence to secure the selection of a candidate in whom he has every confidence as a local representative by the party whose policies he supports and in whose leaders he has confidence. Such action on his part is one of the duties of citizenship which the individual voter owes to his country.

Another course of action on the part of the individual voter is to refrain from pledging his support to any one candidate until all the candidates are in the field, and the opposing policies of the contending parties are clearly outlined and understood. Nobody should pledge such a valuable thing as their vote "in the dark" and without full knowledge of all the facts which have a bearing in the election.

In the approaching election there is another and grave consideration which must influence the voter in the marking of his ballot. Since Confederation, with the exception of the last four years, the party in power at Ottawa, whether Liberal, Conservative or Unionist, has always commanded a substantial and working majority. It was able to govern, and if it was guilty of neglect and failure to grapple and deal with national problems, the responsibility rested squarely on its shoulders.

During the past four years the Government of the day did not possess such a majority. The House of Commons was divided into three distinct groups, each with policies of their own. The outstanding feature of Conservative policy was wholly unacceptable to the Progressive group and to the vast majority of the Government following; the principles and primary features of Progressive policy were equally unacceptable to the Conservatives and to a certain section of the Liberals. Inasmuch as the Government of the day had to depend upon the support of one group or the other, a deadlock usually resulted, and party considerations and manoeuvrings became paramount to the national welfare and progress.

As a result, Canada has drifted at a time when decisive action was urgently needed. Everybody recognizes the situation. The Opposition make it a charge against the Government; the Government admits the situation has existed but holds itself blameless in view of the conditions which confronted it.

Great Britain suffered from exactly the same situation until an election became imperative. Then the people put an end to an impossible situation by returning one party with an overwhelming majority and a clear mandate to govern. In the last United States election the voters were faced with a similar problem, and they, too, decided in the interests of good government to give one group a clear and substantial working majority.

In the election next month the voters of Canada must face this issue and decide it. Regardless of the outcome of the voting, it is important that decisive action one way or the other be taken, and an end put to present indecision and drifting leading to worse than stagnation in the development and carrying into effect of policies and reforms calculated to promote the national welfare.

Latest Triumph Of British Optical Industry

Make Better Lenses Than Any Other Country In World

A cinematograph machine which will take 4,800 pictures a second is one of the latest triumphs of British makers of optical instruments. It can be used to show, for example, the effect of the impact of projectiles on armored plate.

This is only one of the many remarkable results achieved since the war which have placed the British optical industry far ahead of foreign rivals. Before the war, lenses ground in Germany were believed to be the best; now, British lenses are being bought by the German Government for German state institutions.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not an oil preparation, it is able to penetrate quickly, and down it sinks into the tissues, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, soreness, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success proves the merit of Nerviline, which is sold everywhere in large 35 cent bottles.

Paper Made From African Grass
Paper made from esparto, an African wild grass, has been produced by the bureau of standards on a commercial basis and samples have been made available to American industry as a government test. The bureau's reports show that the imported grass pulp, after cleaning gave a 60 per cent. yield of papermaking fibre.

NEARING A BREAKDOWN

A Condition That Calls For a Reliable Tonic

Many women give so much of their time to the cares of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. Often the heart palpitates violently at slight exertion, the stomach fails to digest food and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows weak and they are always depressed. This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills which enrich and build up the blood, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. Alex. McInnes, Bowman River, Man., who says: "About a year ago I had a serious illness which left me very anemic. I was not able to get around to do my work; in fact I could scarcely walk. I was troubled with palpitation of the heart with the least exertion. One day a friend advised me to try Dr. Williams' Pink Pills as they had done her much good. I followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The dizziness and palpitation have left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and rundown."

You can get these pills from any dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Riffians Are Good Fighters

Are Holding Their Own Against France and Spain

The Rifian tribesmen in Morocco will be able to maintain their independence against the French and Spaniards for some time, in the opinion of Sir Charles Hobhouse, former British army officer, and ex-postmaster-general, who has returned to London from inspecting the condition of the Rifian refugees at Tangier, on behalf of the League of Nations.

"Despite grandiose stories, the Rifians are holding their own against France and Spain," he told the newspapermen. "It will undoubtedly be a case of Europe against Africa, if the war is carried on, and it looks as if Africa will hold her own, and a little more."

"The Rifis are great fighters. They have up-to-date equipment, and their leader, Abd-el-Krim, is a man of remarkable military capacity."

Last of the Peace Pipes

Ancient Indian Curio Sent to New York From Saskatchewan

Swathed in its original wrappings, some of the inner materials being hundreds of years old, one of the oldest relics on the American continent is now on its way to New York to its long rest in the museum of American Heye Foundation, an institution devoted exclusively to Indian relics.

D. A. Cadzow, curator of the museum, was in Regina recently after more than a month spent in the various reserves in Saskatchewan. He secured a mass of old knives, arrows, blankets, beads and other trinkets, but the prize he was after and secured was possibly the last of the peace pipes retained by the Cree.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Chinese Law Very Strict

Offenders All Treated the Same in Their Courts

When Lord Palmerston, in 1838, tried to force a bill through the House of Commons to establish an extra territorial court in China in civil and criminal cases it was defeated through the opposition of Sir James Graham and other sound lawyers, who refused to be parties to the creation of a tribunal which would interfere with an "independent power" like China.

As a matter of fact, the objection made to Chinese law by countries whose nationals got into trouble there was that it was too strict and too well enforced.

For example, all murders looked alike to the Chinese courts, and so drunken sailors ashore who killed somebody for fun naturally wished to be tried by European judges who would consider the mitigating circumstances.

It is about time for people to wake up to the fact that Chinese legal ideas, like her arts, were very advanced when Europe was in a state of barbarism.—New York Telegram.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Insects Bring Safety

All steel railway cars are now being used on Indian railways. The change was not made for safety reasons but because insects ate up the wooden cars rapidly.

Tourist Traffic Extending North

Northern Rockies Will Be Mecca of World Says Louis W. Hill

"World tourist traffic is tending north. This generation will see the time when the Northern Rockies will be the Mecca of the wealth and society of Europe and America. The next generation will see the development of Alaska as the centre of the world tourist traffic." This is the opinion expressed here by Louis W. Hill, president of the Great Northern Railway, and son of the famous founder of the road, James J. Hill.

Mr. Hill, who is motoring through the Canadian Rockies with William Kenny, vice-president of his road, expresses the hope that the United States will copy the superior park laws and highways which he has found north of the border.

As the one to whom credit is given for discovering and opening up Glacier National Park, Montana, Mr. Hill believes that good auto roads are now the strongest medium for developing the tourist possibilities of a country. Such roads as the Banff-Windermere highway will in the next generation stretch clear into the wilds of Alaska, he predicted.

DON'T WAIT!
till you get sick.
Use Minard's — the great preventative.

MINARD'S
"KING OF PAIN"
LINIMENT

Ottawa, in Canada; Sydney, Melbourne and Perth, in Australia; and Pretoria in South Africa, all have the right to mint their own gold coins.

Corns are painful growths. Holloway's Corn Remover will remove them.

It has been decided by the Berlin courts that when an opera is broadcast the singers are entitled to demand a ten per cent. increase of salary.

Minard's Liniment used by physicians

The bones and muscles of the human body are capable of more than 1,200 different motions.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetio-acidester of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

APPOINT BOARD FOR ADJUSTING LABOR DISPUTES

Ottawa.—The establishment of a board of adjustment on the Canadian National Railways to deal with grievances or disputes not otherwise adjustable arising from the application of wages and working conditions schedules as affecting clerical, station, shop, sherd, roundhouse and similar classes of employees was made public by representatives of the employees. The new board is similar in constitution to board of adjustment No. 1, which has been functioning for a number of years in connection with grievances of conductors, engineers, firemen, trainmen, maintenance of way employees and others.

Under the agreement just signed by representatives of the railways and the employees, the new board will be composed of eight members, four from the railways management, and four from the employees. The chairman and vice-chairman will hold office six months and will be selected alternately from the management and the employees. To the board will be brought all matters of dispute arising from the application, non-application or interpretation of the schedules, and which have failed in settlement between the officers of the railway and the representatives of the employees. Decisions of the board will be final and binding upon both parties.

Dease Lake Promise Was Not Fulfilled

Disappointed Miners Start Trek Back From Cassiar Field

Telegraph Creek, B.C.—The out-trail from the Cassiar is being trodden today by a host of disappointed miners whose hopes of quick wealth in the placer fields of Dease Lake have been blasted by the cruel reality of life in the inhospitable northland.

A few small strikes have been made, but there is little to show for all the excitement that was stirred up last winter by the announcement of the discovery of free gold in the ancient mining camp which was abandoned in the late nineties with the dawn of the Klondike glory.

Has Denounced Bolsheviks

Premier of Australia Takes Stand Against Communists

Melbourne.—The disturbed conditions in Australia have caused Premier Bruce to take a definite stand against the Communists.

In a public address here the premier denounced the local exponent of Bolshevism, and asserted he would not hesitate to appeal to the people for endorsement of his action. If necessary, he would seek a mandate for further action to insure peace and good government.

Warrants have been issued for four hundred Melbourne seamen for their part in the unofficial strike against the recently announced wage decrease.

Heads Grain Exchange

Officers Elected at Winnipeg For the Ensuing Year

Winnipeg.—D. C. MacLachlan, manager of the Western Elevator Company, was elected president of the Winnipeg Grain Exchange for the term of 1925-26, at the annual meeting of the exchange members. A. Thompson, manager of the International Elevator Company, and N. J. Breen, western manager of the Lake of the Woods Milling Company, were chosen vice-presidents. Dr. Robert Magill was returned as secretary by acclamation.

The executive council of committees were also selected.

Bessarabian Peasants On Trial

Vienna.—The Abende says it learns that 800 Bessarabian peasants are now on trial at Kishinev, Rumania, by a military tribunal. They were arrested by a Rumanian punitive expedition following discovery of an alleged plot to deliver Bessarabia over to Soviet Russia.

W. N. U. 1594

Japan Fighting "Red" Propaganda

Country Fears Effect of Intercourse With Soviet Russia

Tokyo.—Fear of Bolshevik propaganda in Japan is ever present among the heads of the government and it was recently reported that the home department is planning to introduce a bill at the next Diet session for the organization of a special police service to deal with the situation. It is said a yearly outlay of 1,000,000 yen will be asked for this purpose.

The government has not been amiss in adopting measures calculated to be effective in coping with untoward developments that may follow the reopening of the country for intercourse with Soviet Russia. Of these measures the most important is, of course, the new peace preservation law, which the Diet voted at its last session.

It has been found that channels for the introduction of "Red" propaganda are rapidly increasing owing to the growing frequency with which the peoples of the two countries are exchanging visits for commercial, touring and other purposes and also because of the freedom with which new publications are being imported.

The home office regards it as imperative in consequence that a police service of special nature be perfected to deal with the problem of propagation of radical thoughts.

Return Historic Shield

Escutcheon Taken From Quebec Is Presented to City After Long Sojourn in England

Quebec.—Coincident with the one hundred and sixty-sixth anniversary of the battle of the Plains of Abraham, this battle and the subsequent capitulation of Quebec to the British troops were revived to the world when the escutcheon presented to the historic city by a king of France, taken from the walls of Quebec by General Murray after the capitulation of the city, and afterwards handed to the town of Hastings for safekeeping, was officially returned to the city of Quebec as a goodwill offering from England to French-Canadians.

Hon. P. C. Larkin, Canadian high commissioner in London, handed over the shield to Quebec as the official representative of the town of Hastings, England, after the unveiling ceremony by Hon. N. Perreault, lieutenant-governor.

Canadians Coming Back

Over 50,000 Have Returned From U. S. in One Year

Ottawa.—Immigration to Canada for the first three months of the present fiscal year, that is, from April 1 to June 30, 1925, totalled 32,449, according to a report issued by the department of immigration.

Of this total 16,994 came from Great Britain, Northern Ireland and the Irish Free State, 5,307 from the United States and 11,048 from other countries, almost entirely from Northern Europe.

In the same three months 9,141 Canadians who had been in the United States for six months or longer, and who went to that country to settle, returned to the Dominion.

Since the department of immigration and colonization began to keep a record of these returning Canadians on April 1, 1924, a total of 52,916 have come back up to the end of last June.

Increased Unemployment in Britain

London.—Unemployment in Great Britain continues rapidly to increase. The report for August 31 shows a total of 1,354,100 persons unemployed, which is 10,362 more than the previous week, and 191,220 over last year.

ACTION ON B.C. GRAIN RATE CASE TO BE DEFERRED

Vancouver.—Decision on British Columbia's application for revision of the scale of rates on grain coming west for domestic consumption will not be rendered prior to a general revision of freight rates, according to a letter received by the Vancouver board of trade from Hon. H. A. McKeown, chairman of the board of railway commissioners for Canada.

Mr. McKeown takes the position that the seasonal movement of export grain demanded early action, while the same element of urgency was not present in the case of domestic grain rates. The same applies to express rates, upon which the board has been asked for a judgment.

Victoria.—That the railway commission's recent order equalizing export grain rates will not be affected by the resolution of three members of the commission who did not take part in the judgment, was the opinion expressed by Premier Oliver after he had examined copies of the documents.

Cowboy-Earl Likes Ranching

Wyoming Man Who Inherited Title Will Remain in U. S.

Sheridan, Wyo.—Oliver Henry Wallop, aged 63, Wyoming rancher, who succeeded to the title of Earl of Portsmouth through the death of his elder brother, John Felloes Wallop, seventh Earl of Portsmouth, in London, will retain his United States citizenship and legal residence in this country, and plans to continue living on his 3,000-acre ranch near Sheridan after he assumes the title.

The new earl did not appear to regard his rise to the British peerage as extraordinary, and his answer to queries about his departure for England to assume the earldom was that he intended merely to visit his native land, be invested with the title, and then return to his cattle ranch.

During the fall of 1883, Wallop went to Canada on a hunting expedition. From there he wandered to Wyoming to visit a colony of Englishmen near Sheridan. He liked it, and bought a ranch.

Cabinet Ministers Sworn In

Hon. J. A. Robb Succeeds Fielding As Minister of Finance

Ottawa.—The cabinet re-organization was officially completed when Hon. J. A. Robb was sworn in as minister of finance and Hon. Herbert Marshall, as minister without portfolio. The two ministers were sworn in by E. J. Lemaire, clerk of the privy council, in the presence of His Excellency Lord Byng at Government House.

Should the present government be returned to power, there is likely to be further re-adjustment of the cabinet.

Two ministers, Hon. Charles Murphy and Hon. Dr. Bolland are, it is understood, retaining office only until the elections are over and there will then be some re-adjusting of portfolios.

Mr. Robb has been acting minister of finance for some time, owing to the illness of the veteran parliamentarian, Rt. Hon. W. S. Fielding, who now has been retired, after many years of service to his country.

Surrender to Spaniards

London.—A dispatch to the Daily Express from Tangier says the Temsaman tribe, one of the richest and most important in Morocco, surrendered unconditionally to the Spaniards when they landed at Alhucemas Bay.

Plans For Super-Zeppelin

U. S. May Build One Twice As Large as the Shenandoah

Akron, O.—Plans for a gigantic super-zeppelin twice the size of the Los Angeles or the ill-fated Shenandoah, and safer than either, are being drawn up here by the experts of the Goodyear-Zeppelin corporation.

Dr. Karl Arnstein and Capt. Ernst Lehmann, German zeppelin experts, who are now vice-presidents of the concern, are in charge of the plans. The proposed super-zeppelin has been christened in advance the GZ-1.

The experts look forward not only to building this super-ship, but to a day when they will build yet larger ships.

They believe that the larger ships would weather the most severe storm. In fact, they feel that smaller ships can also ride the severest storm.

The proposed GZ-1 would hold 5,000,000 cubic feet of helium. The Los Angeles holds 2,500,000 cubic feet, while the Shenandoah held 2,150,000.

Canada Not Thinking Of Annexation

Has No Idea of Joining U. S. Says Premier King

Toronto.—"Canadians are no more thinking of annexation with the United States than citizens of the United States are thinking of annexation to the British Empire," said Rt. Hon. Mackenzie King, premier of Canada, at the directors' luncheon in "International Day" of the Canadian National Exhibition.

Mr. King added, amid laughter, that the idea of annexation of Great Britain and the United States was one that he would prefer to see brought about before the joining of Canada to the United States was considered.

The prime minister said that so far as he was concerned he would oppose with all his might the idea of annexation of Canada and the United States.

British Subjects Only

Government of Western Australia Will Not Employ Foreigners

Perth, Australia.—The Government of Western Australia, having learned that foreigners have secured a large proportion of the work offered in connection with the clearing of land for the purpose of cultivation, has decided that in future any money advances made to settlers by the Agricultural bank to finance such work shall be made on the condition that only British subjects shall be employed.

Earth Is Slowing Down

Washington.—The earth is slowing down, says a recent publication of the Smithsonian Institution. But there is little danger of a cessation of its rotary motion, for the rate of slowing down is only one thousandth of a second per century.

This means a loss of a minute in six million years. Scientists estimate that ages and ages ago the earth revolved so fast that a day was three or four hours.

Ku Klux Klan in Berlin

Berlin.—The Berlin police announce that they have uncovered a movement, headed by three United States citizens, and participated in by about 1,000 Germans, for the establishment of an order to be known as the "Knights of the Fiery Cross," along the lines of the Ku Klux Klan.

Seize Canadian Schooner

New London, Conn.—The Canadian schooner Dawn, of Lunenburg, N.S., was seized in Narragansett Bay when it grounded while attempting to escape from a patrol boat.

UNITY IN CANADA IS STRESSED AT QUEBEC MEETING

Quebec.—Unity on the part of all the provinces in the Dominion was the keynote of the addresses delivered here at the reception tendered by Hon. Mr. Perreault, lieutenant-governor of Quebec, to lieutenant-governors of Canada.

Among the speakers were: Sir James A. M. Aikins, lieutenant-governor of Manitoba; Col. the Hon. Harry Cockshutt, lieutenant-governor of Ontario; and Premier Taschereau of Quebec.

Hon. Harry Cockshutt said the drawing together of the different provinces was greatly to be desired in Canada.

Sir James Aikins said the unfortunate thing was that Canadians did not understand each other.

"When I think of Canada, of its splendid future," he said, "and when I think of the province of Quebec, I call it the anchor of stability upon a troubled sea, as Canada could not be Canada if it were not for Quebec."

Premier Taschereau, after welcoming the lieutenant-governors and explaining the hopes and ambitions of the French-Canadians, said:

"Our motto is unity in diversity, and nowhere in this Dominion will you find a better Canadian spirit and a more friendly and sympathetic feeling towards those who will reciprocate with us. British Columbia's perpetual summer, western wheat, Ontario's industrial possibilities, Quebec's natural resources and the Maritime's sea and forest wealth, if united, are the foundations of our great future."

Canada-U.S. Drug Pact

League of Nations to Study Recent Extradition Treaty

Geneva.—Governments represented in the League of Nations are to study the recent extradition treaty between Canada and the United States covering offenders against the laws concerning opium and other dangerous drugs, with a view to the conclusion of similar treaties among them. A recommendation to this effect was approved by the league council on recommendation of its permanent opium commission.

Anthracite Prices Advance

Predicted Cost Will Further Increase If Strike Continues

Washington.—Complaints that retailers are beginning to increase prices of anthracite coal are arising from a number of cities. Predictions are made that prices will be still further increased if the strike continues, and that consumers here and in Canada will bear the burden.

Meantime, there are no signs that the administration plans to intervene in the strike, and the walkout will apparently drift on indefinitely.

50 Million Feet of Lumber Destroyed

Hawkesbury, Ont.—More than 50 million feet of lumber, property of the Hawkesbury Lumber Company, Ltd., was destroyed by fire which broke out in a pile at the west end of the island on which the company's yards, mills and houses are located just opposite this town on the Ottawa River.

The loss is set by R. L. Blackburn, of Ottawa, managing director, at \$7,000,000, which is stated to be well covered by insurance.

Increased Output of German Wheat

Ottawa.—The official statement of Germany's production of wheat this year is 106,667,000 bushels, against 89,200,000 last year, according to a cablegram received by the department of agriculture.

The area sown to wheat in Argentina, according to a revised estimate, is 18,829,000 acres, as compared with 17,793,000 last year, and the condition of the crop is excellent.

Advocates Bay Route

Regina.—That the Hudson's Bay Railway is feasible and that an early completion of the construction is desirable is the opinion of C. C. Cooke, of this city, who has just returned from a trip to the bay by rail and water, with a party of western business men. Much material and considerable water power is available for harbor facilities at the end of the lake, he states.

Tractors and Threshers for the Harvest

Part of a record shipment of tractors and threshers from the J. I. Case Threshing Machine Company, of Toronto, which left there recently over Canadian Pacific lines for the western wheat fields.

WE BELIEVE

That the practice of selling poor coal; like
tickling the south end of a mule is **POOR
BUSINESS.**

Saunders Creek Coal

is prohibition coal—no kicks.

The Pioneer is \$2.00 a year only

AROUND THE TOWN

Birth—On Tuesday, September
16th, to Mr. and Mrs. J. Clarke, a
daughter.

R. S. Mutch and H. Stauffer
were visitors to Calgary over the
week end.

Miss Myra Herber, who has been
visiting friends at Alliance, return-
ed home last week.

Mrs. R. Nelson of Harmattan
gave birth, on September 5th, at
the local hospital, to a daughter.

A large and appreciative audience
greeted "The light of the Western
Stars" at the Opera House last
night.

A large brick block is being
erected at Olds by T. H. Darey on
the corner of Third Street and
Railway Avenue west.

The privilege of bringing in the
first load of the new wheat crop
this year fell to A. C. Neufeld, the
Midland elevator grading it No. 1.

An auction sale of household
furniture will be conducted on Sat-
urday, at two p.m., by J. W. Phill-
ipson, directly opposite the Pioneer
office.

Miss Violet Herber returned last
week from a visit to South Dakota,
where she has been spending a little
over a year visiting at Avon and
Redfield.

Recently operated on for appen-
dicitis at the local hospital, Miss
Olive Chamberlain has now so far
recovered as to be able this week to
return home.

Mrs. F. McDonald has under-
gone an operation for appendicitis
and gall stones at the Didsbury
hospital. The latest report is she
is getting along very nicely.

Divine service with Holy Com-
munion will be held at St. Cyp-
rian's (Anglican) church on Sun-
day morning at 10.30, to be con-
ducted by Rev. T. B. Winter of
Calgary.

The Atlas Lumber Co. has been
renovating the interior of its office
putting a new foundation under the
building, and re-modelling the
scales the past week. The result is
a decided improvement.

J. V. Berscht reports much in-
terest is being shown in his potato
contest, and some good specimens
have been brought in. When the
contest closes, it may be stated by
the way, the potatoes will be dona-
ted to the hospital.

Mr. and Mrs. Ed. Moyer and
daughter Elsie of Preston, Ontario,
who have been visiting with their
uncle and aunt, Mr. and Mrs. E. A.
Brubacher, returned home last
week, stopping off at Moose Jaw to
visit another relative on the way.

Instead of seven separate district
meetings for the purpose of electing
the permanent board of directors
of the Alberta Dairy Pool, the pro-
visional directors have announced
that a central meeting of all dele-
gates, 70 in all, will be held in Ed-
monton on October 2nd. The elec-
tion meeting will be combined with
the first annual meeting of the pool.
Among the delegates will be N. S.
Clark to represent Didsbury.

So far, about two thousand bush-
els of this year's wheat crop have
reached the various elevators in
Didsbury. Most of it has graded
No. 2 Northern and is stated by the
elevator men to be of exceptionally
fine quality. The rain of last
week stopped the threshing and
prevented cutting being continued.
How far it has affected the crop has
yet to be determined. On the
whole the weather has not been
propitious for drying, and many of
the farmers have been out the past
week turning the stacks over.

Kendrick & Good STOCK BUSINESS

Phone us when you have any class of cattle for
sale. We will either buy your cattle here, or you
may have the privilege of shipping through us at
45c. per cwt. We wish to give our customers sat-
isfaction through the connections that we have
with different markets.

We have orders for young grade Holstein cows
freshening in August or September.
